The US, Russia & China Superstates Are Coming - Stewart Swerdlow

https://www.youtube.com/watch?v=7YflosPM4yQ 63m

Starlink satellites that are part of its Starshield Program are being used to secretly block radio signals from 3I/Atlas, according to Dr. Stewart Swerdlow who has received a series of briefings by a high-level NASA official. He says March 16, 2026 will be an important date when 3I/Atlas is at its closest approach to Jupiter.

According to Dr. Swerdlow, Russia and Ukraine will sign a peace agreement on January 15, and this will be a key event in the formation of American, Russian and Chinese superstates. He says that all extraterrestrials have their own agendas and cannot be trusted despite them spanning the spectrum from negative to positive.

Dr. Swerdlow was among the initial group of child participants that was involuntarily recruited into the Montauk Project that ran from 1970 to 1983 at the northeast end of Long Island, New York. Beginning at 13 years of age, he underwent time travel and portal experiments that abused up to 300,000 children and adults, only a few of whom survived.

Dr. Stewart Swerdlow's website is: https://www.expansions.com/about-us/

DR. MIKE: Stewart Swerdlow spent 13 years as part of the Montauk Project where he encountered time travel and other portal experiments and also encountered extraterrestrials.
He has a great-grand uncle who was the first president of the Soviet Union and his grandfather
helped establish the Communist Party in the United Kingdom and the USA.
He is currently working with or collaborating, getting information from high level NASA
insiders about some profound changes that are coming to the Earth and has also been
given some high level access to talks to resolve the Ukrainian Russian conflict.
ANNOUNCER: You are listening to exopolitics today with Dr. Michael Salla, your source for the uncensored truth regarding the human extraterrestrial global and political agenda. Click the like button and subscribe to this channel. And now, here is Dr. Michael Salla.
DR. MIKE: Welcome to the show, Stewart.
DR. STEW: Thank you, Dr. Michael. I appreciate seeing you again.
DR. MIKE: Yes, yes. Well, you're a doctor as well. I mean, you want to maybe tell us a little bit about your background for people that maybe don't know too much about you?
DR. STEW: Sure. It's a long history. But as you mentioned, my great uncle, Yakov Swerdlow, was the first president of the Soviet Union. His son, Andre, actually began what became the KGB. And my grandmother, Maias Verlova, was a Russian or Soviet spy during World War II and was on espionage missions against the Germans at that time. And we must remember that in those days, the Soviet Union and the United States and the Britain were on the same side. And actually, technically, they still are, but it's not reported in the news that way. And so my grandfather came to the United States from the UK and wound up eventually in Los Angeles, where I still have some of my family there.
And because of that background, I was taken in for service in the Montauk Project, as you mentioned, from 1970 to 1983. It wasn't

something that I volunteered to do. It just happened and it brought me in and I was involved in time travel experiments, genetic manipulations, weather changes, esoteric weaponry, many, many different topics. People always refer to Montauk as a time travel experiment. And in effect, it had many, many projects under its umbrella, including learning how to communicate with extraterrestrials and aliens, which I mentioned on a previous show. There's two different categories really and also with animals. Dolphin frequencies were very important back in those days and learning the language of hyperspace, which was a triad of color, tone, and archetype, which they translated as language of hyperspace and Godmind communication, how Godmind communicates and actually we learned even back then, we didn't know the term that we have now as AI and quantum, but we knew that these extraterrestrial beings could communicate in any language with any civilization at any time and the reason is they use this language of hyperspace which is inter-universal and communicates with all creatures and intelligences everywhere.

So my very first book, *Hyperspace Helper* has the most extensive dictionary that I could remember when I wrote it of the symbols for the hyperspace language so that you can read your sentences and colors and so on for healing, communication and so on.

DR. MIKE: Now is it accurate that up to 300,000 children went through the Montauk project, but only a handful survived and you're one of the survivors?

DR. STEW: Yes, it's a very bad story, unfortunately. Yes, it was about 300,000, less than 1% survived and in the beginning they would take what they called expendable people, orphans, children of drug addicts or alcoholics, forced children, a street people, people that they said would not be missed and then as things progressed and they realized that it would be helpful to have a certain type of genetics, then they went into the children of military people, authorities, elite people that had a history of a certain ancestry and genetic combinations that were conducive to working in the my control projects and unfortunately I came into that category because

of my ancestry and besides being Russian, one of my ancestors were also from the Mongol Empire.
We must remember that Eastern Europe especially was part of the hordes of the Mongol army that went across Asia and into Eastern Europe even almost all the way to Vienna and they mixed with the local people and one of my ancestors was one of them. So I actually do have Mongol genetics in me as well.
DR. MIKE: Now I mean as you just pointed out you have the desirable ancestry, I mean look at your great uncle and grandfather, genetic qualities, I know you're a gifted psychic and so these were things that they were looking for them on top project and you had those in spades. Now after that was done and I remember coming across your work you know 20 years ago and you wrote blood, I think it was blood lines and blue blood, true blood, blue blood, true blood and you know you talked about the incredible work you had to put yourself through to be able to achieve some kind of balance that you know the abuse was so extensive and you had to kind of like reconcile a lot of things and process a lot of trauma so you want to share that with my audience?
DR. STEW: Yes it was a very traumatic group member, they got a lot of their foundational work at Montauk from the Nazis that were brought to the United States during project paperclip after World War II and the Nazis learned through experimentation in the concentration camps that if you traumatize a person to the nth degree it can fracture the mind into a structure that they called a cube of 13 by 13 by 13 which gives them 2197 compartments in the mind that they can actually program into subpersonalities, constructs, computer of the mind and so on.
Of course they have front altars and back altars, the back altars are therefore let's say holding a position in the cube so it doesn't disintegrate and there are front altars that then take control of the body and interact with others.
So this was part of the experiments at Montauk as a continuation of the Nazi experiments in the concentration camps. I remember I once visited a concentration camp in Austria near the city of Lince and there was Mount Housen, it was called Mount Housen concentration

camp and there was a statue of a Soviet soldier that they had erected as a memorial because the Nazis had captured Soviet army people and subjected them to brutal conditions of extremes so for example they would put them outside naked in the sub-freezing temperatures for days at the time with no food then they would bring them into a very hot humid environment for days at a time and they noticed that when you bring extremes in one after another it intensifies the fracturing of the mind and of course there were beatings near drowning and so on.
And the same thing happened in Montauk Project and that's why many of the younger people especially did not survive. Now here I am in the end of 2025 and the spin the project ended in 1983 so 42 years ago ended on August 12th 1983 abruptly and during the course of my experimentation as if you can say they disconnected the way that my optic nerves can perceive reality so that I could only perceive mentally physical reality.
Technically I was I was considered legally blind and so this was a difficulty for me because I could see energy feels, but not physical reality I could see inside your body as if I were a living MRI machine I could see your mind pattern I could see your genetic history and of course the difficulty was for example if I attempted to drive if it was raining or snowing the energy of the precipitation distorted my visual field.
So it was difficult for me to get around my sleep cycles were greatly disturbed so that I if I step for one or two hours a night that was a lot for me I had a lot of emotional trauma and it was a very difficult decade of time it was in around this time of 1999 that I had surgery to reconnect my optic nerves to my brain so that I could physically see and that was also very traumatic because I had to be awake during that surgery, but it did work.
And many and now many years later I was told by when I go for an eye exam ophthalmologist they don't understand what happened to me and they think I have a glock hormone they think I have cataracts and they told me about seven years ago Michael they told me I'd be blind in two years that was seven years ago well here I am because I as a medical professional as well I knew what I had to do what

supplements I had to take what exercises I had to do what color therapy I would need for the eyes and I had no doctors ophthalmologist in the United States that would understand and when I tried to explain to them they thought of course I was lunatic. So I had to go to a doctor in Ecuador who was part of my I belong to sacred medical order of the Knights of Hope which I've mentioned before it's a religious medical order based on the ancient techniques of healing and so I went to the ophthalmologist there she's a wonderful woman and she said to me if I didn't know who you were and what happened to you I would tell you to have surgery as well and I would give you all kinds of medications, but she says because I know who you are I can see different things than another ophthalmologist and I was there Michael for seven hours in ophthalmology office they had equipment in Ecuador that they don't have in United States.

People think South America is a third world area let me tell you they're much more modern than here and she did such extensive tests and you know she gave me the documentation which the doctors in United States would never give me results of my test in paper never give me she gave me documentation that proved everything that I had been through during that time in Montauk so I was very grateful to her and my vision has improved significantly because of the supplements and techniques that I've been using.

So the same thing with my hearing because my hearing was distorted from the electromagnetic disturbances I had to go through I actually was working in the Philadelphia naval yard I think that would have been early 90s early yes early 90s and they made me go through physical tests as well and it was there that they told me I was legally blind and deaf so you know, but I can hear and it is true that sometimes the hearing can be distorted that's why I prefer to use the headphones because I can hear better in this way without external noises, but I think that I'm doing pretty well given the circumstances my health.

I'll just admit to the audience I just in November it became 69 years old and in Ecuador they said to me that my biological age is about 54 so that I'm 15 years younger biologically than my chronological age.

So I said well couldn't you reverse it make it 45 instead of it so they said well next time you come we'll see how you've improved so we're doing that so it's a long-winded story that I'm telling you about my health issues and what happened to me.

DR. MIKE: Well it's very appropriate because there's a lot of people in my audience that have been through maybe not as extensive, but have been through traumatic experiences and have had certain kind of like trauma imposed on them and they're trying to work through it all and I'm sure many of them would be very interested to hear how you got through it and I know you did get through it so that you eventually became very productive and today I think you're doing a lot of work to promote world peace, to promote healing and you're putting out a lot of books with your wife Janet. So yes, you're very active which is great.

DR. STEW: Yes, and it's basically almost 24 seven and to and to and to answer some questions that people have about why was I asked to do these things I never want to I never had in my mind to do such things I wanted to work in the medical industry I wanted to help people I was very well known for mind pattern analysis personality profiles I did such things even for police departments.

So when I was approached after February of 2022 when the Ukraine Russian war began I didn't expect to be asked to help the American government because they said the all the official channels were closed they had shut down the consulates in both countries only thing left was the embassies the airlines were no longer flying between.

So they said, we know that you have a context in the Russian government because of your family and I said well yes I especially with the media because almost every month I would be on Russian television doing a show with for them and with them very much like I'm doing here with you. I'm well known in in Russia and former Soviet territory.

So they said the first thing they asked is if I would help them to really gain the release of Brittany Griner as you know who was a female basketball player who was arrested in Russia for having some narcotic that here would be legal, but there was not.

So I said well what are you offering and they said well ask them what they want.
So I went to the Russians and I said the Americans would like Brittany released they'll give you whomever you want back and you give her back to us and it took a couple of months, but as you know she came back around this time of Europe towards Christmas time. It was and after that they asked me to help the following year or two with that Paul Whelan who was also held. He was there for several years actually.
So that also we began and I said the Russians are asking for prisoners who are being kept outside the United States there I believe one was in Brazil one was in Norway Germany I said this thought they're not being kept in American prisons and the State Department said it's not a problem we'll take care of it and they did.
So Michael the thing is that I learned is that what you see or hear on the media 90 plus percent is not true made up stories twisted around. A lot goes on behind the scenes that people don't know.
For example people don't realize that despite the embargo despite the tariffs all of these things America is still importing Russian oil minerals they're still doing it quietly same in Europe so all the propaganda that you hear is basically for public consumption to basically also mind control people to believe certain things, but I was told about a month ago that by January 15th the war in Ukraine will be over for several reasons in the beginning Russia was very proud to announce in their news that they had all the food they needed that the economy was great everything was booming, but after three and a half years more almost four years now not it's not so good they're increasing taxes people don't have money.
The Russians have used the up almost all their American dollar reserve that they need for international trade their oil is being blocked for trade and so I've been working with certain groups in the US Treasury and so on and Mar-a-Lago to arrange for funds to be released for both sides the Americans are calling it a repatriation and the Russians are calling it a release of stolen property.
I guess it's a matter of perspective on how you look at it so I'm still working on that.

But they had to stop the war because they can't sustain it. In fact the Russians have now been using North Korean soldiers. They've even asked Vietnam to supply soldiers, but what people don't know is that both Russia and China have gone into Africa and enticed young African people to join the military in Russia and China under false guys for example they say because Africa is poor there's not much opportunity.
And so they say to these young people you come to Russia. We'll give you a place to live. We'll give you money. You'll have food, all of these things. And then the people go and they put in the army and what are they going to do. They can't leave. So this is another issue that's going on, unfortunately. Well, today's near the stated goal.
DR. MIKE: Yes, well I was just going to say today is December 22nd and January 15 is just over three weeks ago so something dramatic must be happening behind the scenes for the peace to be resolved by then and I think you've already described a little bit of that process, but things must be much further along than what we're hearing from the mainstream media yes in fact
DR. STEW: President Trump's what they're calling emissary with cough was just with Rubio was just in Moscow and then he left and they were Russian delegates that were in Miami recently and they went back and of course here's the issue people say well you can't make these deals without Ukraine is not participating in this what people have to understand is that Zelensky is not really the president of Ukraine anymore his term of office ended earlier this year they have not been any more elections so technically he's not the president and you they don't want to negotiate with him because he has no status.
The only status he has is the EU and NATO propping him up for their own purposes quite frankly and so Russia stated I think two or three days ago because I get Russian news and I translated and sent to certain people in government and the Russian Putin stated if Ukraine whoever is running Ukraine does not agree to our terms immediately we will take Ukraine by force and that's the end of that so one way or the other it will be over in the next three to four weeks so we will keep a close eye on that and I keep asking and they said absolutely

they're adamant on the January 15th day so that's all I can tell you, what they told me.
DR. MIKE: So I know you have connections within the administration for being helped with the release of these American prisoners and that you I think was you attended one of the talks in Turkey with Laura Eisenhower.

DR. STEW: Yes I was asked by the Russians to create an American delegation that was in November of 2023 to come to Istanbul to have a meeting of what they call people to people the Russians with the Americans privately and they asked me to lead the delegation and so I did and I asked Laura to come she she's wonderful. She always was willing to help and I also as a space director and he came as well and a few other people at the meeting was also a Putin's right hand person Viktor Khamarun who is actually he went to school with Putin and is married to Putin's cousin.
He was very kind to me because the week we went it was my birthday week in the first week of November and so Khamarun brought snacks and vodka from Moscow and he made a birthday party for me so that was very thoughtful of them.
So from that meeting in Istanbul ultimately led to president Putin and president Trump meeting in Alaska and also the other delegations that met in Oman Dubai Istanbul as well and in Miami and so that what we did in Istanbul in 2023 led to the subsequent meetings and it was actually my meeting that that we led was in Russian newspapers Mexican Latin American newspaper Americans media refused to run the story they absolutely refused anything that had to do with Russia in peace they wanted no part of it, but many other countries all the BRICS countries all the former Soviet countries they all ran that story so it's interesting to me to see the different perspectives of the two sides where Russia is always made out to be the enemy and yet they were more willing to be conciliatory than the American side so yes and that's still ongoing and I have also been

asked to create the committee for global peace in a neutral country and the Russians told me that when I accomplished this which I'm hoping to do Michael in the next three months in a Gulf Persian Gulf country which I will not going to mention at the moment whose friends with everybody the Russians said that they will bring in 150 other countries to be part of it and ultimately replace the United Nations which they consider to be evil and even the Americans tell me United Nations are evil. So it's going to be a very interesting 2026 for sure.

DR. MIKE: Now on that committee for global peace that you're involved in setting up I mean that reminds me of this board of peace that Donald Trump proposed to settle the Israel Hamas of conflict and that was approved by the United Nations Security Council, but in a speech talking about it he said that this board of peace will start off focusing on the Hamas Israel conflict, but eventually it will encompass many other parts of the world so is there a connection between the board of peace that Donald Trump and he was approved as the chairman of the board and this committee for global peace that you're involved in.

DR. STEW: Well interesting that you said that because and I and maybe this is just me, but because my work was discussed in Mar-a-Lago and I think he got the idea for it not that I'm taking responsibility no, but I think he got the idea that yes this is a good way to do it, but this is what I was told Michael.

In the debriefing that this issue is for public consumption Hamas will never give up their weapons nor their position that they have so the initial stage one and beginning of stage two that we're seeing is really how shall I say a diversion because look guys are still being bombed they're still shooting between Hamas and the IDF and the Islamic countries are still fighting and so that I was told it will not stop. The Hamas will not actually acquiesce to the peace plan that was signed.

However the other Muslim countries around the area even as far away as Indonesia and Pakistan are supporting this idea in order to create something and I want to show you a map if I may I'm going to hold it up and you can see on the top you will see a patch from the

IDF shoulder of the Israeli flag and a map underneath of greater Israel and when we look at greater Israel.
I don't know if you can see that on the map. You can see that it encompasses quite a large area I think it's reversed you might have to reverse that image oh I don't know how I'm going to do, but I'll pretend your options.
And so what this means it's a plan called pox judicial which has been around for a bit of time, but not enforced and it goes back to the biblical concept in the in the Torah where god told the Hebrew people he's giving them the land from the Nile to the Euphrates for eternity.
So as crazy as it may seem their Muslim nations are accepting this and even Saudi Arabia who is creating a 70 nation group for the development of AI quantum is including Israel in that 70 nations because they know that Israel has the technology to do so.
So they also know that in this process they will be the creation of an Islam caliphate from morocco all the way to Iran and Central Asia so they're willing to exchange the land for the greater Israel for this huge Islamic super state basically creation and I had asked my German intelligence counterpart about this because he knew about this and I said well how is that going to happen how are they going to create this situation and he said to me there will be two aircraft that will bomb the dome of the rock in Jerusalem it will create a huge conflict that will be resolved with Israel taking over all of this area.
I said when will this happen and he said within one to two years so I when I asked I'd say by the end of 2027 we should see this development as insane as it sounds, but then again look at the last few years the insanity that that has manifested and here we are so as I mentioned on a previous show of yours there's going to be three main super states the American, Russian and Chinese and we're seeing that happen.
We're seeing that happen now within Israel Columbia all these countries that are being now removed the government's removed so they become pro-American we have seen in recent in the last year or two change of government in Argentina, Bolivia, Chile, equator and the Guiana all pro-American even the united states bailing out their

economic issues and even equator which uses the American dollar Columbia is not using the dollar, but will soon panama, costa Rica all the American currency is being now used in these Latin American countries and even in the Caribbean which will be part of the super state as well.
One issue is Brazil because as people may know the Brazilian government changed more towards the left side a couple years ago and as part of BRICS.
So we're seeing president trump little by little let's say weakening that government so that sometime in 2026 we will see Brazil also join forces with the rest of Latin America under the umbrella of the U.S., of the American super state.
DR. MIKE: Yes I was going to ask about the formation of the Russian super state presumably taking over western Europe or taking over Europe and how will that unfold with the development of this greater Israel and Islamic caliphate.
DR. STEW: Interestingly about six years ago I think it was president Putin went to Jerusalem and when he left the site of the of the third temple of the temple he said that he wants the third temple to be built he actually is very supportive of Israel and Netanyahu and Putin despite what the media says speak on a daily basis.
Remember the leaders of countries say one thing and they do something else. They want the public to think one thing and then the governments do something quite different than you think. So Putin is going to take Ukraine like he said one way or the other, but not to be fooled by the peace by January 15th because that will give Russia a break of from war for several months to rebuild their supplies and their finances and so on.
Then they will start to go across as Putin said three years ago he said Russia will extend to Lisbon came from his own mouth now here's the thing there's a reason why president trump wants gremlin and Canada it's because in order to have the golden dome or what he was now calling golden vault protection they need the entire continental area under the same umbrella which includes the kremlin and you will see will also include Iceland and then Prince Charles had invited the president trump to London last September for the

second time which is quite never happened before to join the commonwealth the British commonwealth which then allows the united states to defend any commonwealth nation that comes under attack, but behind the scenes the Russians know that Britain and the Ireland would not fit well under their administration.
So you will see sometime 26 maybe early 27 that Britain and Ireland as well as Iceland will come under the umbrella of the American super state there's a possibility also for Australia and new Zealand because they don't want to be under Chinese rule, but the Chinese want Australia they need the room and they need the minerals and the same with new Zealand so this is a topic that's still how shall we say under development to see how that resolves, but you may recall earlier this year the Chinese navy surrounded Australia that was a warning so this remains to be seen with that part of with that southern hemisphere part of the world we will see what happens.
DR. MIKE: Who's giving you that information about the formation of these super states
DR. STEW: My contacts at mar-a-lago and state department. They confirmed it just a couple weeks ago okay. I also have a high-level NASA insider and administrator.
DR. MIKE: Yes so what's he saying about space. Now I know you need to be concerned about it as well.
DR. STEW: Yes. As you know just a couple of days ago 3I Atlas passed the Earth at its closest point and technically or let's say on the surface nothing happened I will tell you that the united states sent two probes into space to monitor this object and both of those probes returned off by somebody else and there's still no contact with them and I mentioned on a previous show with you that there were warning messages given for quite a while now and that is why this object was releasing what they're calling anomalies that are not present in comets like a heartbeat signal energy that would represent life force reverse thrusters around the sun objects that were in tandem with it and of course NASA sticks by it's a statement that it's a natural object, but look what happened on Friday this past Friday the 19th you know the astrophysicist Avi Loeb for months had been saying this is not a natural object and he had proof of it.

Well they told me Avi Loeb had asked when the objects came close closer, he asked for information and NASA remained silent. NASA always gives information to astrophysicists unless there are anomalous bits of information that they don't want anyone to know and then Michael suddenly Avi Loeb went on the internet and said oh well it's most likely a comet it's a natural object a complete reversal within 24 hours of what he's been stating so he was threatened he was threatened that you don't tell the line that's going to be the end of your career forever and because you are not a citizen a natural citizen you will be deported so he changed his tune abruptly which to me is a big not a red flag so much as a an obvious statement that it was not a natural object, but I mentioned march 16th 2026 it will be closest to Jupiter it's on its way there now and at that moment on march 16th the gravitational pull of the sun will become weaker than the gravitational pull of Jupiter for that object so then it remains to be seen why is the object going at that particular moment in time when it can get closest to Jupiter what is it going to do in that vicinity and as you may know Jupiter and Saturn are like many solar systems they have many moons around them some of them larger than the Earth and many of them capable of supporting life so march 16th is another day to put on your calendar to see what's going to happen on that day.

DR. MIKE: Now I know you have spoken about 200 starlink satellites that are being used to block radio signals from three I Atlas and that this suggests Elon Musk and Starlink is aware that three I Atlas is a craft so I mean yes you want to talk about that and I assume that this is part of the pentagon's star shield project with Starlink.

DR. STEW: That is correct. So the 200 satellites that Elon has that were monitoring the transmissions from the this object in space he blocked them under order of NASA and the government of United States so that amateur astronomers and governments on the Earth that were not privy to the information would not receive the transmissions. They were only blocked and they were actually recalibrated to a coded transmission that only the united states was able to receive.

DR. MIKE: So what does this kind of tell us about Elon Musk then? I mean he's done interviews where he says he doesn't know about UFOs and extraterrestrial life. I mean is he lying through his teeth.
DR. STEW: He's lying through all parts of his body. It was the same thing with J.D. Vance and Marco Rubio. They were trying to figure out what it is and go through the listen the second that they were elected. They were debriefed on all of this and President Trump knows all of these things and we're going to see during the first six or seven months of 2026 a slow methodical release of information so that by the end of the of this coming year people will have in their minds that.
Oh there is something out there and we're going to find out what it is. It's called creeping. They slowly release information kind of like giving you a spoon at a time, each spoon at a time until you eat the whole bowl.
And that's what they're doing because they know that these objects which are coming from the Kuiper belt and the Oort cloud mean business and they could basically they could annihilate the planet in a half a second, but the reason they haven't is because they need the resources here as well.
And I might have mentioned on a previous show about a group that they call the network that the American government communicated with in late 1968 and 1969 in the Florida panhandle I think it was Elgin air force base that's up there and they had an audience yes Eglin and they were told that the Earth is part of a network of seven 18 000 worlds from here to the Andromeda galaxy that were in the territory of this group that was called the network.
So the general who was sent to speak with them said well then you'll protect the Earth won't you? And the answer was yes we'll protect the Earth, but not you. You are the invaders not us. You're the invaders.
DR. MIKE: That's interesting well you know that kind of raises the question of these different galactic organizations that supposedly helping humanity deal with changes meaning you mentioned the name the network others talk about the galactic federation others

talk about the galactic alliance I mean what is the agenda of these organizations as far as you know

DR. STEW: I can tell you what I was told Michael and I know that some of the audience will not like what I say, but I I'm not here to convince I'm just here to say what I know and I was told point blank there are no nice aliens they all have an agenda and there's many galactic organizations look we have basically hundreds of billions of stars in the milky way alone and maybe a trillion galaxies that we can discern in this universe and there's probably more and there are infinite universes.

So it's vast out there and the two groups that they mentioned to me is one called silver fleet and dark fleet the silver fleet is maybe a little more friendly, but the dark fleet is not friendly and both are in the Kuiper belt region and as I may have mentioned in other shows there is a controversy amongst them on what to do with the Earth because as I mentioned the Earth is considered to be like the Iran of the galaxy.

They consider humans to be dangerous violent aggressive and unnatural and that's an important point because life on this world was either manufactured here or brought from elsewhere it did not evolve naturally so all life forms on this planet human all the way down to animal and plant life was brought or manufactured here over eons of time.

I was told by my NASA contacts and actually intelligence contacts more than once that the Earth is an experiment. It's an experiment by different groups. It's kind of like if you have many acres of land and you want to grow different crops and you want to see which crop is going to be the best crop for the land.

So different groups develop different species, different types of humanity, so to speak and they've come to the conclusion, I don't like saying this, that there was a failure. Humans have not progressed the way they were supposed to and I was told even in Montauk time they said the reason we mind control and program people is for their own good because if you leave human beings alone they'll kill each other.

They'll destroy what's around them just like if you put lizards in a pit they'll kill each other trying to get out rather than help each other get out

And they [the Nazis?] told me there's more violence and war in space than on this planet and that's quite incredible. That's a big statement. So unfortunately to those outside of our world this planet is a very bad neighborhood and they don't know what to do exactly about it, but they're going to do something and it may not be pleasant.

DR. MIKE: Now are your sources telling you that okay there's this dark fleet out there and this silver fleet out there which is slightly more positive, that there are these galactic organizations like the network out there. What have they told you about secret space programs. I mean does the Navy for example have a secret space program called solar warden or radiant glory?

DR. STEW: To answer your question yes, but now I must qualify it because now they're trying to put, well they're not trying, they are putting everything under one umbrella so that there's no separate groups because we cannot use that as a safety mechanism one of the reasons president trump is trying to create this golden vault it's not so much to protect against China which is a danger, but to protect about what's coming.

What I was told are an armada in the Kuiper belt and they're heavily armed with weapons you can't imagine. They could if they wanted to destroy the Earth in a second.

So the reason they're keeping it is because they need what's here. And there are those who use human beings for food, for exchange with other races to use as servants, to use as in a zoo, if you will, very nefarious reasons. Do you know that hundreds of thousands of people are vanished without a trace, hundreds of thousands of people every year and that's because they're being sold out there and traded out there as a commodity.

It's a very dangerous situation and that's why… and here's the thing I tell people when they tell me about the love line and pieces of look watch that movie *Independence Day* when all the new age people

are in there they're holding up and the spaceship is there Welcome space brothers, let us in.
We love you and then the ship opens up and the light comes out and they're cheering. What happens? They are all blasted into oblivion they are the first ones killed and that was a statement that the government was trying to tell you.
Some beings are not nice people. They have an agenda. They might make you think they're nice people, but they're not and I can tell you from my own experience that there are some that may not stab you in the back, but they lie about a lot of things and in Montauk Project when we were doing into creating wormholes going from point A to point B you needed the coordinates.
So some of these beings gave us coordinates from point A to point B and they were fake. People wound up in rocks under the ocean, in deep space. They gave us false coordinates. Just because you have high tech doesn't make you spiritual. I've always said spirituality must exceed technology otherwise that society is doomed and so unfortunately these beings have high technology, but they're not so spiritual.
DR. MIKE: But would it be in the interest of the government to share the truth about to say they're asked very highly evolved spiritual races that have advanced technology, but they're not part of the system of agreements reached on Earth.
Now would the government share the truth about them or would they lie and just make out that there are no positive ETs out there?.
DR. STEW: Up until now President Trump's second term they lied about everything. Now there is a program of dissemination of information very slowly because imagine what would happen and these are the exact words that they said to me.
They said Stewart what would happen if people knew what was out there and what they were going to do? People would freak. They would commit suicide. They would be rioting that'll be the end of religion and there would be the end of the economy.
We can't just tell them. We have the little, little bit until there's a semblance of understanding and then they can release more

information, but you cannot shock eight billion people with such information. What would happen? It would not be a good situation.
DR. MIKE: What do you know of this new NASA administrator Jared Issacman? Is he going to kind of like take us in a new path, a new direction or will it be more of the same?
DR. STEW: And that's an interesting question because they don't discuss him very much, but I can tell you and I may have said this on another show that in Antarctica is the fourth Reich and they even said to me point blank many times Stewart what would people think when they find out there's a fourth Reich did you know there's a fourth Reich in Antarctica? This man is associated with that and the reason he is there is because of the technology that he has access to and I can't say too much more about it.
But here again we're going to see a unification of all the space agencies. Space Force with NASA, military intelligence. They're now going to come under one umbrella so there's only one commander of all.
We cannot have the different branches doing different things anymore it's too dangerous we have to have it under unification.
So I'm also going to tell you and I may have said this that southeast Florida from Miami to Cape Canaveral Jupiter area is going to basically be the economic and political center of the American super state.
DR. MIKE: Interesting, so is this why the Artemis accords have become so popular that and now you have like a total of 60 countries from around the world the national space programs have signed on to work with the US where the US is really the top dog in space.
DR. STEW: Correct and in addition to that the United States is adamant that the United States must be number one in quantum AI because whoever has that will control the whole Earth and the solar system and so that's why there's this big race for the data centers for the quantum software engineers and so on. They told me by 2028 they expect to have a good handle on all of that so that by 2031 we will actually have a real singularity of humans with a technology intertwined like a Borg.

DR. MIKE: Now you mentioned JD Vance as really being someone that's well versed in this quantum AI and what what's coming and that Donald Trump is going to resign as president at the end of 2026 I think, so what's going to happen to Vance and what's going to happen to Trump?
DR. STEW: Well this is why they're letting you know little by little about President Trump's physical issues and so that is also why this past weekend Erica Kirk said that she supports JD Vance for the next president she's telling you the situation and so once he is assured of success on the midterm elections next year then he will resign, but you are going to see, Michael, the end of the Democratic Party and the end of the Republican Party and a new political party come forward and that is already in process.
DR. MIKE: Fantastic well I know you only have an hour so we've just about at the end of that hour so I just want to give you the opportunity to share any final words to my audience about what they should keep in mind as we kind of like enter 2026.
DR. STEW: Yes I want everyone to not be afraid despite what I'm telling you it's not to give fear it's to give information so that you know what to expect. If I'm driving on a road and there's a cliff up ahead I want to know so I could slow down or go around it so that's my purpose and I was also told Michael that they wanted me to say things that they would not say publicly that I would be their unofficial spokesperson for topics that they cannot say.
So that's why I'm doing this. It’s not that I want to, but this is this is where I am and they basically said well you know we could make people disappear or you could get deported, but okay you know tell me twice I understand. So remember everybody listening and everybody in the world, all eight plus a billion people.
Why are there so many people now? Because these souls came here to witness something that will never repeat again on the Earth this is an amazing one-time show and you all came here to not only witness it, but to participate in it.
You can't just sit back in your chair and watch it happen you have to do something. Whatever you see in front of you make it better. Help a person. Help an animal, plant something. If something is broken,

fix it. Make the world a better place even if it's one little thing. Do something positive to make the world a better place and know that God always wins in the end.
Ultimately not only my opinion, but spiritually things will ultimately get better and I was told it might take a couple of generations, but it will get better and we are the foundation those who are alive now are the foundation of the new world that will come and be a better place.
DR. MIKE: Well thank you Stewart I wish you all the best for the new year and the Christmas celebrations and I look forward to talking to you again in 2026.
DR. STEW: Thank you Michael and thank you all everybody. Again happy Hanukkah happy Merry Christmas happy new year anything you celebrate enjoy it and be well and happy and you know I have my webinar every week you go to expansions.com and once stop shop you'll get everything you need to know right there.
DR. MIKE: Thank you Stewart.
DR. STEW: Thank you Michael.
ANNOUNCER: You have been listening to exopolitics today with Dr. Michael Salla please remember to like share and subscribe to this channel join or start a conversation in the comments take the time to explore the vast library of best-selling books, webinars and podcasts by Dr. Salla visit exopoliticstoday.com
[Stew clearly has holes/distortions that arise from using NASA Nazi influence as a key info source. Their canned narratives will rapidly devolve/dissolve as the Atlas purpose clarifies.]
